

Information Security and Acceptable Use Policy

Document Code: POL-IT-003 | Department: Information Technology | Effective Date: February 1, 2026

1. Password Standards

Passwords must be at least 14 characters long and include uppercase, lowercase, numerical, and special characters. Passwords expire every 90 days.

2. Multi-Factor Authentication (MFA)

MFA is mandatory across all enterprise accounts, email inboxes, and internal VPN connections.

3. Unauthorized Software

Employees may not install third-party applications, browser extensions, or torrent clients on corporate assets without explicit written authorization from IT.

4. Incident Reporting

Any suspected phishing email, lost hardware, or data compromise must be reported to security@company.com within 60 minutes.
